

Invasive Species Distribution and Severity within Cincinnati's Parks

Ohio River Valley CISMA Map 2021

Park name	Primary species				Additional species										Notes
	Honeysuckle (H)	Gallery Pear (C)	Wintercreeper (W)	Lesser Celandine (L)	English Ivy	Burning Bush	Porcelain Berry	Bittersweet	Japanese Chaff Flower	Japanese Stiltgrass	Tree of Heaven	Johnson Grass	European Spindletree	Bamboo	
Alms	Major			Major			Major								
Avon Woods	Major	Minor	Major	Minor		Minor	Minor								
Badgley Run	Major	Minimal	Major	Major	Major	Minimal	Minor	Minimal							
Burnet Woods	Major		Major	Major		Minimal	Major								
Buttercup/Parkers Woods	Major	Minor	Major	Minor	Major	Major	Minor								
Caldwell	Major		Major												
California Woods	Major	Minimal	Minor		Major	Major		Major							
LaBoiteaux	Major	Minor		Major			Minor								
Mt Airy	Major					Major		Major							
Stanberry	Major		Major			Minor		Major							
Walnut Woods	Minor	Minor	Minor	Minor		Minimal	Major	minimal							
Woodland Mound	Major	Minor		minor				minor	minor						Honeysuckle density varies widely, some areas minimal, others major. Classified as major since kept out of many areas by management.
Embershoff Woods	Major	minimal	minimal					major							
Fernbank	Minor	minimal	minor	major					major						
Kroger Hills	minor	minimal	minimal	major											Some areas of dense honeysuckle and lesser celandine. Upland area north of Rt 50 is also one of our nicest and oldest forest patches.
Lake Isabella	minor	minor		major											
Miami Whitewater Forest	major	major	minor	major						minor	minor	minor			Honeysuckle and callery pear density varies widely. Some areas with heavy management and/or old growth forest (e.g. Bowles Woods) are surprisingly free of HS even long after last treatment. Callery pear is heavy in some prairies, much less in others.
McGary	minor	minimal	major										minor		
Newberry Wildlife Sanctuary	minor	minor	minor	minor											Some areas of Newberry are heavily invaded by very old honeysuckle, but much is also relatively intact woods in good shape
Francis RecreAcres	minor	major		major											
Triple Creek	major		minor								minor			major	
Glenwood Gardens	major	minor		major			major				minor				
Hesselbrock Purchase	minor														
Campbell Lakes Preserve	minor	minor		minor					minor		minor				
Withrow Nature Preserve	major	minor		major				major							
Otto Armlieder	minor	major		major					minor						
Shawnee Lookout	minor	minor		minor							minor				
Farbach-Werner Nature Preserve	minimal	minimal		minor											
Alvis / Summe Tract	minimal	major	minor	minor											
Richardson Forest Preserve	major	minimal	minimal	minor				minor							
Kilby Tract	minor	major		minor											
Mitchell Memorial Forest	major	major		major				major		major					
Welch Purchase	minor														
Oak Glen Nature Preserve	minor			minor						major					
Winton Woods	major	major	major	major			minor	minor				minor			
Sharon Woods	minor	minor	major	major				minor			minor				
Little Miami Golf Center	major	major	minor	major											

Key

Major: species requires immediate attention within the next year or two

Minor: species is present but does not require immediate action

Minimal: species has been fully eradicated, or hasn't been found
